E1 POS Recycler

E1 POS Recycler is a compact and intelligent cash recycling solution designed for both self-checkout and cashier-assisted retail environments. By efficiently recycling deposited cash for future transactions, it helps reduce cash-in-transit (CIT) costs while improving operational efficiency and customer convenience. Equipped with machine learned counterfeit detection & serial number recognition E1 delivers secure, accurate, and seamless cash handling. Its space-saving design, high-capacity storage, and flexible configuration make it an ideal solution for retailers.
